

FITMENT INSTRUCTIONS

VOLKSWAGEN AMAROK Canopy Camper and ModCAP Camper

Installation Instructions

Preliminary information

Installation and fitment instructions includes the tools required, fasteners included in the kit, and the hardware included in the kit.

Please follow the instructions and check installation steps with the images in this document.

Alu-Cab recommends that all sealing work is allowed to cure for 24 hours, after which you may drive the vehicle on normal paved roads. Before driving off-road with your Alu-Cab product or operating your roof conversion, an additional cure period of 48 hours is required.

Failure to follow these instructions will void your warranty. Please ensure that you follow the sealant manufacturers curing time as per their technical data sheet.

These times may differ slightly from the times we have recommended.

DISCLAIMER

Safety Notice – Lifting and Handling of Product

Do not attempt to lift, move, or suspend the canopy, canopy camper, or any related product using eyebolts, eye nuts, or any components attached to the cargo rails or roof accessory tracks.

These points are not engineered or rated for lifting loads and may result in serious injury, product damage, or failure if used.

For all lifting and handling operations, only use approved lifting methods such as:

- A forklift positioned securely beneath the base structure, or
- Outrigging poles attached to the designated lifting brackets supplied or approved by Alu-Cab.

Always ensure lifting equipment and methods comply with applicable safety standards. Improper lifting may void the warranty on this product.

Installation Instructions

2

Fit lower door frame to filler panel assembly as shown.

Installation Instructions

3

VW Amarok load bin.

Installation Instructions

Installation Instructions

Mount filler panel assembly to load bin as shown.

4

Installation Instructions

5

Mount the Front Filler Assembly

Installation Instructions

6

Then mount canopy camper base unit on top of load bin.

Installation Instructions

6.1

Connect rear filler panel assembly and base unit as shown. Bolt connector plate 1 across camper joint into already inserted M8 nuts on both sides.

OUTER MOUNTING ON
BOTH JOINTS

Installation Instructions

6.2

Rivet connector angle to camper joint on the inside with supplied Ø4.8x15 sealed rivets.

**INNER MOUNTING
ON BOTH JOINTS**

Installation Instructions

7

Fit rear door rebate with Ø4.8 x 15 sealed countersunk rivets as shown.

Installation Instructions

8

Fit rear door by mounting 4 x Butt hinges to camper frame as shown. Centre rear door, top to bottom and the hinge centres left to right. Also mount the door lock to the camper frame.

Installation Instructions

9

Attach hinges and lock to camper frame.

M8x30 Hex Head Bolt	Hex Head Bolt	AISI 316	8

Installation Instructions

Fitting the Canopy Camper Mounting Brackets

STEP 1

Installing the Amarok Mounting Brackets

Our first step in fitting our Amarok Canopy Camper is to install the Mounting Brackets into the Vehicle Load Bin. All 4 must be installed before moving forward with the fitment, there is no particular order in which they should be installed.

We can start at the Front Right of the Load Bin as shown in the images below:

Figure 1 : Front right Mounting Bracket

Figure 2 : 2 Hex Bolts will be inserted through the slots in the mounting bracket

Installation Instructions

Figure 3 : Use a flat washer and spring washer with the Hex Nut

Figure 4 : Fasten the Hex Bolt into the existing holes in the Load Bin on the front right floor

Installation Instructions

Figure 5: Nut Caps must be placed on the Hex Bolts

Installation Instructions

Installing the Rear Right Mounting Bracket

STEP 2

For this step we need to install the Rear Right Mounting Bracket.

Figure 6: Rear right Mounting bracket

Installation Instructions

Figure 7: Insert 2 Hex Bolts with a Spring Washer and Flat Washer through the Bracket holes into the existing holes in the Load Bin

Installation Instructions

Figure 8: Add Nut Caps to the Hex Bolts

Installation Instructions

STEP
3

Installing the Canopy Camper Mount Brackets

The next step is to install the triangular Canopy Camper Mount Brackets to the Nut Slots found on the base frame of the Canopy Camper. To start, insert 3 Hex Bolts into the front Nut Slot, close to the Front Right Bracket as shown below:

Figure 9: Hex Nuts inserted into the Canopy Camper Nut Slot, you can now place the Bracket over these exposed Hex Nuts

Installation Instructions

Figure 10: We can now place a Flat Washer and Nyloc Nut on the Hex Bolts

Figure 11: We now need to drill 2 holes through the upright Bracket using the Triangular plate as a guide

Installation Instructions

Figure 12: Place 2 Hex bolts from the opposite side where we just drilled, through the drilled holes

Figure 13: We can now add Flat Washers and Nyloc Nuts to the Hex Bolts to fasten them

Installation Instructions

Figure 14: Nut Caps are added to finish off the exposed Nuts and Bolts

Installation Instructions

STEP
4**Installing the Rear Canopy Camper Mount Brackets**

For this step we need to install the Rear Canopy Camper Mount Brackets to the Load Bin Mounted Bracket.

Figure 15: Rear Canopy Camper Mount Bracket

Installation Instructions

STEP
5

Left Hand Side

Repeat Steps 1-4 on the Left Hand Side to Complete the Mounting of your Canopy Camper.

Figure 16: You can follow the process for Step 3 to install this bracket, it is the same regarding the drilling of the 2 holes and fastening, just on the right hand side Nut Slot not the Front

Figure 17: Drilled holes with Hex Nut Fasteners installed

Review all instructions information carefully before installation.

Any damages, direct or incidental to the installer and/or property due to incorrect installation of any parts are the responsibility of the installer. Due to the various applications and fitment options available, the responsibility lies with the user to ensure all mounting points are secure and tight before every trip.

If unsure, consult with your Distributor regarding the operations of our products.

Users are advised to be mindful of the load they are carrying and drive in accordance with road conditions.

WARNING

Always wear appropriate PPE (Personal protection equipment) when fitting our products. Although the mounting kit is designed to be DIY, if you have any doubts or concerns, contact an accredited fitment centre to carry out the work. Alu-Cab will not be liable for any injury to persons, and/or damage to products and/or vehicles.
