

FITMENT INSTRUCTIONS

INEOS GRENADIER EXTERIOR MOLLE

IG-A-MP-EX

Installation Instructions

Installation and fitment instructions includes the tools required, fasteners included in the kit, and the hardware included in the kit.

Please follow the instructions and check installation steps with the images in this document.

Alu-Cab recommends that all sealing work is allowed to cure for 24 hours, after which you may drive the vehicle on normal paved roads. Before driving off-road with your Alu-Cab product or operating your roof conversion, an additional cure period of 48 hours is required.

Failure to follow these instructions will void your warranty. Please ensure that you follow the sealant manufacturers curing time as per their technical data sheet.

These times may differ slightly from the times we have recommended.

Extra's to Note

x1 Spacer (IG-A-MP-EX-P007) is included per molle to even out spacing if an Alu-Cab Ineos loadbar (IG-LB-FEET) is installed. The spacer will help even out the Molle Plate fitment.

Installation Instructions

Ineos Grenadier Exterior Molle

2

Cargo rail inserts

2.1 - Unscrew the Grenadier's cargo rail using a T30 Driver. It does not need to be completely unscrewed, but just enough to shift it out to slide the Cargo Rail Inserts inside the rail.

2.2 - Once the 3 inserts are installed, the cargo rail may be secured back to the vehicle.

FASTENERS REQUIRED HERE

Installation Instructions

Ineos Grenadier Exterior Molle

Mounting Bracket Install

3

3.1 - Using a T30 Driver, unscrew the following OEM bolts and washers . This will be reused for the molle plate installation.

Installation Instructions

Ineos Grenadier Exterior Molle

4

Mounting Bracket Install

4.1 - Install the mounting bracket (IG-A-MP-EX-A01) using the OEM bolts and washers. Start with the lower bolt, and the top bolts last.

NOTE: Use the spacer seen on page 5 here if the Ineos loadbar (IG-LB-FEET) is installed

Review all instructions information carefully before installation.

Any damages, direct or incidental to the installer and/or property due to incorrect installation of any parts are the responsibility of the installer. Due to the various applications and fitment options available, the responsibility lies with the user to ensure all mounting points are secure and tight before every trip.

If unsure, consult with your Distributor regarding the operations of our products.

Users are advised to be mindful of the load they are carrying and drive in accordance with road conditions.

WARNING

Always wear appropriate PPE (Personal protection equipment) when fitting our products. Although the mounting kit is designed to be DIY, if you have any doubts or concerns, contact an accredited fitment centre to carry out the work. Alu-Cab will not be liable for any injury to persons, and/or damage to products and/or vehicles.
